Szymon Oleśkiewicz
Student

I am a motivated computer science student at Military University of Technology with hands-on experience in Python, C and web development. I am eager to apply my technical skill in real-world projects, especially in machine learning and AI.

Other	Machine Learning, Generative AI

Certificates

2020-08	**First Certificate in English - Grade A**

Hobby/Interest

I love cooking and trying out new recipes, as it's a great way for me to be both relax and be a little creative. I'm also really into gaming, especially strategy and open-world games, they help me unwind after a long day. Traveling is something I enjoy whenever I get the chance. Exploring new places and cultures is always inspiring. In my free time, I like programming and tinkering at home, whether it's building small projects or just experimenting with new tools and ideas.
